Our speakers today isn't just a dynamic Keynote Speaker, but he is an amazing husband, father, entrepreneur, and the founder of The Hairston Company, LLC. He motivates people through his life story of trials and triumphs. He teaches business leaders and entrepreneur about P.A.C.E and how to Engage and Win!

He brings to the stage a wealth of knowledge from his 19 years of law enforcement experience.

He knows first - hand some of the many challenges families, employers, coaches, teachers, and others face in today's society. Growing up in a poverty-stricken community, he was determined not to allow the challenges he faced to hold him back; he chose to learn from them, grow stronger and set out to make a better life for himself.

He understands the added value and the importance of building authentic relationships and the importance of life - long learning. He also uses his motivational speaking as a way of helping individuals identify their value.
